

HS50P / MS50

100,000 LB First Layer Line Pull

BRADEN®

DIMENSIONAL INFORMATION

RIGHT HAND ASSEMBLY SHOWN.

- Band brake around cable drum helps prevent “birdnesting” of cable when drum clutch is disengaged.
- Replaceable clutch jaws are bolted to cable drum.
- Oil-cooled, fully adjustable automatic worm brake.
- Tapered roller bearings provide extra capacity in carrying worm thrust and radial loads.
- Freespool clutch with negative draft jaws for positive engagement under load.

COMMITMENT

Every process in the design, manufacture and support of BRADEN products is focused on one goal: Providing the highest quality winch, hoist and drive systems in the world.

PACCAR Winch Division is committed to providing the best in product design, durability and reliability. BRADEN products are supported with comprehensive publications, factory service representatives and a world wide distribution network.

Since 1905 PACCAR Inc has provided high quality products and services to numerous markets and countries. Let us put our experience and expertise to work for you.

PERFORMANCE FORMULAS

LINE PULL AT LOWER PRESSURE

$$\frac{\text{YOUR SYSTEM PRESSURE}}{\text{MAXIMUM PRESSURE (FROM CHART)}} \times \text{LINE PULL FROM CHART} = \text{LINE PULL ESTIMATE}$$

EXAMPLE:

$$\frac{1000 \text{ PSI}}{2300 \text{ PSI}} \times 35,000 \text{ LBS} = 15,217 \text{ LBS}$$

NOTES

Specifications are subject to change without notification and without incurring obligation.

Pressure and flow shown are the maximum allowable for the particular combination of winch, ratio, motor and drum.

Specifications in this publication are theoretical and may vary depending on hydraulic system, environment, etc.

Line pulls are maximum ratings for the winch only.

Wire rope ratings may be lower than the the winch rating. Consult the wire rope manufacturer for ratings.

⚠ WARNING ⚠

A minimum of 5 wraps of wire rope must be left on the drum to prevent the load from being supported by the wire rope anchor alone. Since the wire rope anchor is not designed to hold the rated load, failure to leave 5 wraps of wire rope on the drum could cause the load to drop, which could result in property damage, personal injury or death.

2-Speed Performance
